VP of Engineering · 18 years in software, 11 in engineering leadership

EXPERIENCE

VP of Engineering — Kontor (HR SaaS, 450 employees) Feb 2020 – Present

- Lead an engineering organisation of 9 teams (70 engineers) across web, mobile and platform.
- Own engineering strategy, hiring plan, and a EUR 9M annual budget; report to the CEO.
- Sponsored the company-wide move to a React + TypeScript micro-frontend architecture.
- Established the accessibility programme that brought all products to WCAG 2.1 AA.

Director of Frontend Engineering — Zalando Mar 2015 – Jan 2020

- Managed 5 frontend teams (35 engineers) building the customer web shop in React.
- Set performance budgets and Core Web Vitals targets across the org; drove a 30% LCP improvement.
- Introduced org-wide testing standards (Jest, Cypress) and a shared design system.

Engineering Manager, Web — SoundCloud Jan 2012 – Feb 2015

- Managed the web player team (8 engineers); hands-on in JavaScript and Backbone, later React.

Senior Frontend Developer — Yandex

Sep 2008 – Dec 2011

- Built search UI features in JavaScript, HTML and CSS.
