

RAHUL MENON

Bengaluru, India (open to remote) — rahul.menon@example.com — +91 98450 00000

SUMMARY

Senior frontend engineer, 8 years of professional experience across product companies. Strong in React and TypeScript, with a focus on performance and testing.

EXPERIENCE

Senior Frontend Engineer | Fieldly (logistics SaaS, ~200 employees) | Jan 2024 – Present

- Tech lead for the dispatcher dashboard (React 18, TypeScript, Zustand, Next.js App Router).
- Cut dashboard INP from 480ms to 120ms by virtualising large tables and memoising expensive renders.
- Introduced Playwright end-to-end tests and visual snapshot tests; flaky test rate under 1%.
- Ran accessibility remediation for the dashboard to WCAG 2.1 AA (focus order, ARIA live regions for real-time updates, colour contrast).

Career break | Mar 2023 – Dec 2023

- Full-time carer for a family member.

Frontend Engineer II | Swiggy | Jul 2019 – Feb 2023

- Migrated the restaurant partner portal from Vue 2 to React + TypeScript (120+ screens).
- Built a shared design-system package (React, CSS-in-JS, tokens) adopted by 5 teams.
- Owned frontend performance budgets; reduced main bundle from 1.4MB to 640KB.
- Wrote unit/integration tests with Jest and React Testing Library.
- Consumed GraphQL APIs via urql.

Software Engineer (Frontend) | Practo | Aug 2017 – Jun 2019

- Built responsive appointment-booking pages for clinics (Vue.js, SCSS, later React).
- Implemented CI checks with Jenkins for linting and tests.

EDUCATION

B.Tech, Information Technology — NIT Calicut, 2017

SKILLS

React, TypeScript, Next.js, Vue, Zustand, Redux, CSS/SCSS, CSS-in-JS, Jest, React Testing Library, Playwright, GraphQL, Web performance, WCAG, Jenkins, GitHub Actions
